

## MARISTICK® Polyurethane Adhesives for the production of Sandwich-Elements (Panels)

### MARIS POLYMERS® adhesives for Panels

MARIS POLYMERS® offers specialized adhesives for the production of sandwich-elements (panels) under the trade name MARISTICK®.

The MARISTICK® adhesives offer a complete range of solutions for the panels industry as they include one and two component products, that can be applied either by spray or by hand. The MARISTICK® adhesive range includes fast or slow setting adhesives, depending on the panel production method used.

***MARISTICK® adhesives are used for the production of:***

- ✓ Exterior Doors
- ✓ Interior Doors
- ✓ Security Doors
- ✓ Separation Walls
- ✓ Refrigerator Trucks, etc.

POLYURETHANE ADHESIVE	COMPONENTS	Uses
